

PROMYS India

Program in Mathematics for Young Scientists

Six Weeks of Deeply Challenging Mathematics

at the Indian Institute of Science (IISc) Bengaluru: 7 May–17 June, 2023

Professor Ila Varma, Director

Professor Aditya Karnataki, Associate Director

**For Mathematically Talented Students from Across India in Standards IX-XII
Full Scholarships for All Students: including Hostel, Meals and Travel**

Join 32 students, 8 undergraduate counsellors, faculty, research mentors, and visiting mathematicians for a residential summer of intensive mathematical exploration.

- PROMYS India seeks to encourage mathematical habits of mind that support curiosity, creativity, collaboration, and independence in facing unfamiliar mathematical challenges.
- PROMYS India is closely modelled on PROMYS, its 34-year-old parent programme at Boston University in the U.S.
- Daily Number Theory lectures, advanced seminars, exploration labs, and mentored research plus guest lectures and talks on a wide range of mathematical topics.

Application and application problem set: www.promys-india.org

Apply by 15 February, 2023

"At PROMYS, students don't just learn mathematics, they learn how to think." Haran Mouli

"PROMYS has been the most mathematically enriching, rigorous, and, ultimately, satisfying experience I've ever had." Diya Mathew
