Subject: National Testing Agency Ensures Fair Conduct of NEET (UG) 2024 Examination.

Delhi, 5 May 2024 - The National Testing Agency (NTA) is committed to ensuring the integrity and fairness of the National Eligibility cum Entrance Test (NEET) (UG) examination, held annually for medical aspirants across the country. In light of recent events, the NTA would like to address concerns regarding the conduct of the NEET (UG) 2024 examination.

During the NEET (UG) 2024 examination, it came to the attention of the NTA that at one examination center, Girls Higher Secondary Model School, Mandir, Mantown, Sawai Madhopur, there was an incident of incorrect distribution of question papers by the Center Superintendent. Despite efforts by invigilators to prevent it, some candidates left the examination center with question papers.

However, the NTA assures the public that apart from this isolated incident, the NEET (UG) 2024 examination commenced smoothly and is being conducted peacefully at all other examination centers across the country. The NTA emphasizes that this incident has not compromised the integrity of the examination process at other centers.

In order to uphold the principles of fairness and equal opportunity for all candidates, the NTA has taken proactive measures. The examination of approximately 120 affected candidates from the Girls Higher Secondary Model School examination center is being conducted today, 5 May 2024, ensuring that their academic aspirations are not hindered by this incident.

The NTA reaffirms its commitment to conducting examinations with transparency, integrity, and fairness. We extend our best wishes to all NEET (UG) 2024 candidates and assure them of our continued support throughout the examination process.

Sadhana Parashar
